Clean Flow System

Fume Cupboards

You can get them – out of the box, off the shelf.
Or you get them meeting exactly your requirements and expectations.

Customized from exateq

to be YOUR exhausted workspace!

We have created a platform defining the shell/basic body, the features you define. Sockets, sink, fully integrated tanks, chemical supply and/or disposal, controlled and recirculated exhaust – you name it, we create a solution for you.

Standard dimensions, yes, or you talk to us and we do our best to make rocks move.
